Dear Florida Presbyterians,

A ministry of our larger, connected Presbyterian Church USA, the Presbyterian University Center-Westminster House offers and embodies our Lord's joy and peace among students at the Florida State University.

Indeed, students constitute our primary mission field.

We need help to identify and locate students who are either currently enrolled or who may enroll at Florida State University this summer or fall.

You, your staff and congregation are in the vanguard to assist us in contacting these students. We need and we ask for your help, please, in communicating with them in the coming weeks.

The Presbyterian University Center-Westminster House also has student resident openings available for summer, fall and spring semesters.

Interested students and parents should contact me immediately for more information about these housing billets.

Distribute the attached flier as broadly and widely as possible throughout the church, please.

The cause of Presbyterian campus ministry is crucial, its needs are as acute as the students it would serve. No investment than that which we make with our students enrolled in State institutions promises to yield higher returns.

Help us build the church deep and wide. Students deserve to hear from us, to know that the church does not abandon them as they awaken unto adulthood and mature unto Christ. You are our portal to serving and supporting them.

Help us do so more thoroughly and effectively, please.

I welcome your replies and supportive prayers.

Very truly yours,

*Bruce*

Bruce A. Chapman, D. Minister  
Presbyterian University Minister, Presbyterian University Center-Westminster House
